

FP-9222-D28/36 Dual Flat Panel Display Arm

note: Also available in black and mountable with a flex adapter to any desktop

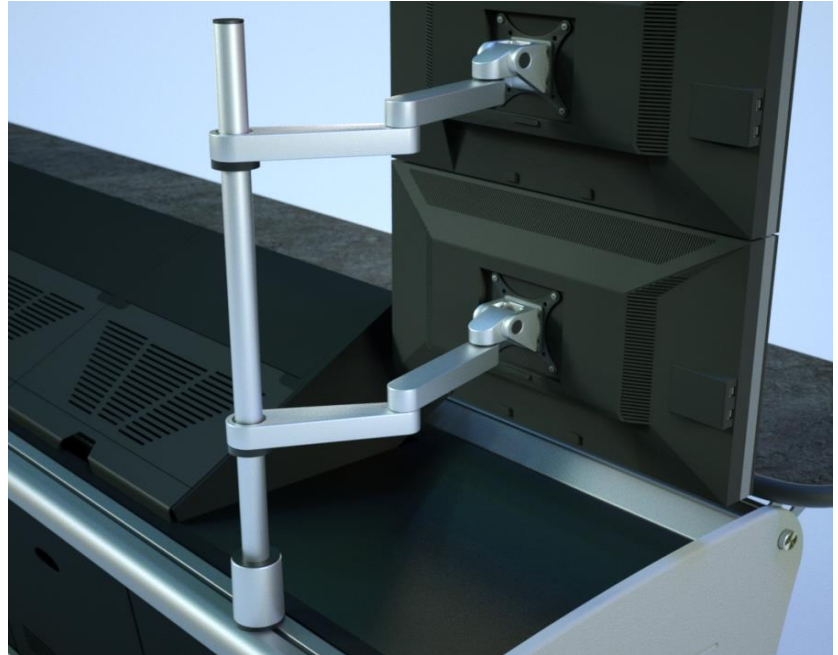

Product Description:

The FP-9222-D28 and FP-9222-D36 are Post type LCD mounts of different heights that allow for monitors to be vertically positioned in an ideal distance from the operator.

Dual folding arms adjust vertically up and down the post in 1" increments.

The dual arms can fold to fit in about 5" of space and extend out over 16".

Unique cable management allows cables to be tucked under the forearm and main arm and down

Features:

Weight capacity: 40 lbs (18 kg) per mount

Arm rotates 360° at 3 joints. VESA-compatible

Monitor tilt mechanism can tilt over 200°.
