## About Us

We are technical furniture designers, manufacturers and installers.

Founded in 1988, TBC has expertise in all types of adaptable control room furniture with a specialization in ergonomic consoles for broadcast and video production, as well as security command centers, utilities, and process control rooms of all types.

TBC delivers and installs on a local, national and international scale. With major installations in every continent, we have distributors world-wide and customize our systems to work with specific requirements.

We have a robust warranty and satisfaction guarantee on all our products.
