

AC-CPU555 Countertop mounted CPU holder

Product Description:

This sturdy and well-designed CPU holder will keep your CPU secure and steady. With simple installation and easy access, the CPU-555 is a great option for your CPU needs.

Features:

- Heavy-duty construction will easily accommodate oversized CPUs.
- The CPU55 can easily adjust to fit CPUs from 3" to 9.5" wide and 12" to 22" tall.
- Easy-grasp handle with 360-degree rotation for access to cables and ports.
- Interfaces with the TBC countertop support arm rather than bolting directly into the countertop for added stability.
