

## FP-3500 Floating Short Reach Monitor Arm

Position your monitor exactly where you want it with fingertip control of both vertical and horizontal movement. The integral gas assist arm renders the monitor weightless.

### Features:

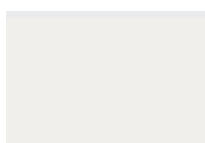

- Weight range 10 - 23 lbs (17 to 24" lcs, typically)
- Arm rotates 360° at 3 joints.
- Monitor tilt mechanism can tilt over 200°.
- Adjustable tension at all joints - ideal for touch screen applications.
- VESA-monitor compatible.
- Optional extension cups available to raise monitors 2 or 6 inches. Monitor arm is configured to work in TBC's Trac system. Desk mounting clamp is available at additional cost.
